

Personal Use Firewood Area Conditions

Central Coast Ranger District- Siuslaw N.F.

2021-2022 Firewood Cutting Season

Applicable to all Personal Use Firewood Cutting Areas:

- Keep slash and debris cleared from road surfaces, ditches, shoulders and culverts, and at least 15 feet from the edge of the road.
 - Keep slash work current.
- Firewood must be removed in lengths less than 6 feet.
- Be sure to carry your permit with you at all times while cutting, and each person cutting must have a permit.
- Firewood load tags must be placed on the load prior to removal from the forest.
- Cut decked logs and dead and downed wood along road in designated areas only. Firewood collection from slash piles is also permitted as long as piles are not pulled apart.
- Cutting of firewood outside of the marked locations is prohibited. Each area will be clearly signed with “Entering firewood cutting area” signs and “Leaving firewood cutting area” signs.
- **No fuelwood is available within 100 feet of an intermittent or perennial stream**

Applicable to Designated Live Red Alder Cutting Areas:

- Red alder will not be painted and is the only species available for firewood in this cutting area. No tree size limit for cutting. Available red alder shall be no further than 25’ off the roads edge.
- Permittee can have a 20-day permit for 2-3 cords or a 40-day permit with 4-6 cords. Each household can have a maximum of six cords per year. For additional cords, please consider a commercial use permit. Firewood areas are subject to change as the season progresses and the availability of suitable areas changes.
